

RESOLUTION NO. 8-2021

A RESOLUTION IN SUPPORT OF TEMPORARY PAUSE  
ON OIL AND GAS LEASING ON FEDERAL PUBLIC LANDS

WHEREAS, our vast network of federal public lands offers abundant natural beauty, a wealth of natural resources, a vital economic engine for local communities, and a sought after unique quality of life for residents of communities adjacent to them; and

WHEREAS, it is critical that our public lands and waters are managed responsibly and sustainably so they can remain open and accessible to present and future generations; and

WHEREAS, we support the legal requirement that our federal lands be managed under the 'multiple use' standard to best meet the present and future needs of the American people; and believe that the federal land management policies should be developed with input from local communities and public land users, and incorporate the best available science; and

WHEREAS, federal public land policy should ensure that the companies extracting natural resources provide a fair return to federal and state taxpayers while also protecting wildlife and providing the opportunity for the development of sustainable economic non-extractive activity such as outdoor recreation; and

WHEREAS, our state is experiencing the devastating impacts of a warming climate including severe heat and drought, which are making wildfires more frequent and extreme; an increase in emissions of methane, a powerful greenhouse gas emitted on our public lands; extremes in precipitation; and dust on snow, which causes snowfall to evaporate prematurely; and

WHEREAS, one-quarter of the country's greenhouse gas emissions come from fossil fuel activity on public lands; and

WHEREAS, in 2018 pollution caused by the burning of fossil fuels caused 8.7 million or one in five deaths globally; and

WHEREAS, as elected leaders, it is our responsibility to take and support prudent and pragmatic steps to reverse climate change and mitigate its devastating impacts by reducing the amount of greenhouse gases and other forms of pollution that contribute to climate change,

NOW, THEREFORE, BE IT RESOLVED by the City of Leavenworth City Council, that:

1. We support the executive order that temporarily pauses new oil and gas leasing on federal public lands and encourage the federal administration to:
  - a. Modernize the federal oil and gas leasing program to ensure the oil and gas companies that hold leases and extract natural resources provide a fair return to federal and state taxpayers; and

b. Develop a plan to phase out the production of fossil fuels, which are a major contributor to climate change, in a way that also supports the workers, communities, and states that currently have fossil fuel-dependent economies.

Passed by the City Council of the City of Leavenworth and approved by the Mayor in an open public meeting on the 13<sup>th</sup> day of April, 2021.

APPROVED:
